

# PHARMACOTHERAPY

NEMC Box 806, 750 Washington St.

Boston, MA 02111

Phone (617) 636-5318 • Fax (617) 636-5318 • Email editor@pharmacotherapy.org • Web <http://www.pharmacotherapy.org>

## SCOPE AND PURPOSE

Pharmacotherapy is devoted to publication of original research articles on all aspects of human pharmacology and review articles on drugs and drug therapy. The editors and editorial board invite original research reports on pharmacokinetic, bioavailability, and drug interaction studies, clinical trials, investigations of specific pharmacological properties of drugs, and related topics.

Original reports are published in one of the following departments:

- ◆Original Research Articles. These are full-length original research articles in such areas as therapeutics, pharmacokinetics, pharmacodynamics, and pharmacoeconomics.
- ◆Research Reports. These original research reports are preliminary reports of studies that have a high potential for significant impact.
- ◆Practice Insights. These articles report innovative clinical practice or pharmacoeconomic advances, which may be centered in any practice setting such as the community, hospital, clinic, or a collaborative practice. An assessment of clinical or humanistic outcomes is required.
- ◆Case Reports. Case reports detail interesting clinical cases that provide relevant insights into drug therapy. Authors are encouraged to include an extensive review of the literature.

Review articles may be spontaneously submitted or may be prepared at the invitation of the editor. Authors are encouraged to call and suggest possible topics. Most reviews are published in one of the following departments:

- ◆Reviews of Therapeutics. These articles are state-of-the-art reviews on the drug treatment of specific diseases, or are comprehensive critical reviews of recently marketed drugs.
- ◆Minireviews. These are brief, concise, and focused articles on controversies, dilemmas, and significant changes in drug therapy including important new drugs that may be in late-phase trials or have been recently marketed.
- ◆Alternative Viewpoints (online only). This correspondence clarifies or challenges any of our previously published articles and, whose publication, would benefit the readership in general. Submissions to this department must be received within 3 months of the publication of the article in question and are limited to a maximum of 300 words.

All manuscripts are subject to review by qualified consultants and the editors, and are accepted for publication if they are thought to be important contributions to the biomedical literature. The manuscript checklist must accompany submitted pages. Authors are invited to call the editor to clarify any issues. The manuscript requirements of Pharmacotherapy generally conform to the Uniform Requirements for Manuscripts Submitted to Biomedical Journals (Ann Intern Med 1982;96(1 part 1):766–71).

The content of Pharmacotherapy is protected by copyright. Manuscripts are accepted for publication with the understanding that their contents, all or in part, have not been published elsewhere, except in abstract form, or by the express consent of the editor. Pharmacotherapy accepts no responsibility for statements made by contributors.

Advertising is accepted, subject to the editor's approval, for prescription drugs and related products used by health practitioners in patient care. Inquiries should be addressed to the advertising representative, Professional Media Group, 40 North Woodbury Road, Pitman, NJ 08071 (telephone 800-486-5454).

Requests for change of address should be sent in writing to the publisher at least 6 weeks before the change is effective. Missing issues will be replaced at no charge up to 3 months following the date of issue. A charge of \$10 per missing issue will be assessed for claims received after 3 months but less than 12 months following the date of issue. Thereafter, the full back-issue price will be charged.

Secondary services that cover articles in Pharmacotherapy include Biological Abstracts, Chemical Abstracts, Current Contents, Excerpta Medica, Index Medicus, Current Awareness in Biological Sciences, and Referativnyi Zhurnal. Pharmacotherapy is microfilmed by University Microfilms International of Ann Arbor, Michigan.

## Instructions to Authors

To expedite the review and publication of manuscripts, the editors of Pharmacotherapy require that a copy of this form be completed and submitted with each paper. By following the instructions on this form authors will meet the major stylistic requirements of Pharmacotherapy. Authors must comply with and check each point on the list or mark "NA" for not applicable.

Manuscripts should be submitted using Pharmacotherapy's Manuscript Central submission site at:

<http://mc.manuscriptcentral.com/pharmacotherapy>

### General

- \_\_\_ Cover letter includes an explicit mailing address (no P.O. boxes,) telephone and fax numbers, and e-mail address for the corresponding author, and total word count of the manuscript.
- \_\_\_ Word count not to exceed 12,500 (includes abstract, text, and references; excludes tables and figures). If word count is more than 10% above this limit, express permission must be obtained from the Editor-in-Chief.

- \_\_\_ The complete manuscript is uploaded in Microsoft Word format.
- \_\_\_ All pages are numbered consecutively (in the upper right-hand corner), beginning with the title page and including tables.
- \_\_\_ Each of the following elements begins on a new page in this sequence: title page, abstract, text, acknowledgements, references, footnotes, tables, figure legends, figures.
- \_\_\_ Abbreviations are in accordance with the AMA Manual of Style, 9th edition.
- \_\_\_ All papers published in Pharmacotherapy (including online-only articles) will be subject to a \$50.00 publication fee, to be assessed at the time papers are accepted for publication.

### Title Page

- \_\_\_ Includes concise, informative title.
- \_\_\_ Includes first name, middle initial, last name and highest academic degree of each author.
- \_\_\_ Includes institutional affiliation section with specific department or laboratory.
- \_\_\_ Includes address for reprint requests.
- \_\_\_ Includes 3–10 key words.
- \_\_\_ Acknowledges the source(s) of support in the form of

grants, equipment, or drugs. Specifically, any support from a pharmaceutical manufacturer must be acknowledged.

- \_\_\_ If the paper was presented, in whole or in part, at a meeting, includes name of meeting, location, and inclusive dates.
- \_\_\_ Includes running head (abbreviated title).

#### Abstract (not required for Alternative Viewpoints or Editorials)

- \_\_\_ Concisely states objectives, methods (procedures), main results (including specific data and their statistical significance, if possible), and principal conclusions.
- \_\_\_ Abstracts for Original Research Articles, Research Reports, and Brief Reports must conform to the format outlined in *Annals of Internal Medicine* 1987;106:598–604. A style sheet may be requested.

#### Text

- \_\_\_ First-level headings are typed as upper and lower case, bold, flush left; second-level headings are upper and lower case, flush left; third-level headings are upper and lower case, italics, flush left.
- \_\_\_ When reporting experiments on humans, indicates whether the experiment was in accord with the ethical standards of the institution's committee on human experimentation or in accord with the Helsinki Declaration of 1975.
- \_\_\_ When reporting experiments on animals, indicates whether institution's or the National Research Council's guide for the care and use of laboratory animals was followed.
- \_\_\_ Measurements and units are reported in the conventional centimeter-gram-second (CGS or metric) system. SI units are not acceptable.
- \_\_\_ Identifies precisely all drugs and chemicals by generic name.
- \_\_\_ For commercial products important to the paper, denotes, in parentheses, the trade name or model no.; the manufacturer's name, city, and state or country.

#### References

- \_\_\_ Are cited consecutively in the order in which they appear in the paper. References cited in figure legends and tables are also numbered consecutively with the references in the text at the point where the tables and figures are cited in the text.
- \_\_\_ Are identified in text, tables, and legends by superscript arabic numbers.
- \_\_\_ Do not include any "unpublished observations" and "personal communications." Written, not oral, communications are inserted, in parentheses, in the text.
- \_\_\_ Have been verified by the author(s) against the original documents.
- \_\_\_ Abbreviations of journal titles conform to those used in *Index Medicus*.
- \_\_\_ Are in the style of the U.S. National Library of Medicine and used in *Index Medicus*. Examples of this style follow:

##### Journal article

List all authors when six or less; when seven or more, list only first three and add et al; identify abstracts and letters in parentheses at end of title.

Miller RR. Drug surveillance utilizing epidemiologic methods: a report from the Boston Collaborative Drug Surveillance Program. *Am J Hosp Pharm* 1973;30:584–92.

##### Book—personal author(s)

Greenblatt DJ, Shader RI. Benzodiazepines in clinical practice. New York: Raven press, 1974:28.

##### Chapter in a book

Scheife RT, Levy M, Greenblatt DJ. Antimicrobial agents. In: Miller RR, Greenblatt DJ, eds. *Drug effects in hospitalized patients*. New York: John Wiley and Sons, 1976:227–64.

##### World Wide Web

National Osteoporosis Foundation. Disease statistics: fast facts, June 2004. Available from [www.nof.org/osteoporosis/stats.htm](http://www.nof.org/osteoporosis/stats.htm). Accessed June 6, 2004.

##### Package insert

Merck Sharp & Dohme. Prilosec (omeprazole) package insert. West Point, PA; 1991.

#### Tables

- \_\_\_ Do not use "table tools" available with software programs.
- \_\_\_ Are in Pharmacotherapy style, with each column separated by tabs, rows by hard returns.
- \_\_\_ Are typed double-spaced, each (complete with title and footnotes) on a separate page (not submitted as images).
- \_\_\_ Do not contain information duplicated by figures.
- \_\_\_ Do not contain horizontal or vertical lines within the tabulated information.
- \_\_\_ Use superscript letters for footnote designations.
- \_\_\_ If entire table is from another published or unpublished source, permission is obtained from the source (proof submitted with paper) and the source is acknowledged.
- \_\_\_ References first cited in tables are numbered so that they will be in sequence with references cited in the text.

#### Figures (one complete original set)

- \_\_\_ Highest-quality figures are computer generated and saved as a high-resolution Postscript (EPS) or TIFF format. Graphs or charts may be submitted in Microsoft Excel or Microsoft PowerPoint only if the numerical value of each data point is provided to the journal. Figures must be submitted as individual computer files, and not only embedded in the manuscript file. Please call for further information.
- \_\_\_ Axis labels appear outside the axes.
- \_\_\_ Titles and detailed explanations are in the legends, not the illustrations themselves.
- \_\_\_ Legends are typed double-spaced on separate pages.
- \_\_\_ Are numbered consecutively as they are cited in the text.
- \_\_\_ If previously published, the original source is acknowledged, and written permission from the copyright holder to reproduce the material is submitted.
- \_\_\_ Each figure is labeled with the appropriate figure number.
- \_\_\_ Authors are responsible for obtaining permission from the copyright holder of all figures and forwarding it to Pharmacotherapy before revised manuscripts will be accepted.

#### Copyright, Originality, Conflict of Interest, and Liability

- \_\_\_ By submitting a paper to Pharmacotherapy, the corresponding author (and co-authors) agree(s) to the following terms:

In consideration of the journal Pharmacotherapy taking action in reviewing and editing my (our) submission, the author(s) hereby transfer(s), assign(s), or otherwise convey(s) all ownership rights in the submission and all copyright ownership to Pharmacotherapy Publications, Inc. In the event that such work is not published in Pharmacotherapy, all said rights shall be released.

All authors agree that they are solely responsible for the opinions, judgements, and data expressed or implied in their manuscript and further agree that Pharmacotherapy does not share in that responsibility.

- \_\_\_ The corresponding author (and co-authors) must respond to the following Conflict of Interest questions online.

Do you have a potential conflict of interest? \_\_\_ Yes \_\_\_ No

If yes, please check all that apply:

- \_\_\_ Member of company advisory board
- \_\_\_ Member of company speakers bureau
- \_\_\_ Employed by pharmaceutical, biotechnology, or medical company
- \_\_\_ Ownership of significant amount of pharmaceutical, biotechnology or medical company stock exclusive of mutual funds (and the like)
- \_\_\_ Has your research received funding from any commercial source? If so, please explain below.
- \_\_\_ Other. If so, please explain below.

- \_\_\_ The primary or corresponding author affirms that:

None of the material in this manuscript has been previously published and none of this material is under consideration, or has been accepted for publication elsewhere. This includes journal articles, letters to the editor, symposia, proceedings, transactions, books, articles published by invitation and preliminary publications of any kind except an abstract of 400 words or less.
