

**ACSAP 2020 Book 2 (*Geriatric and Psychiatric Care*)**

**Release date: July 15, 2020**

**BCPS test deadline: 11:59 p.m. (Central) on January 15, 2021.**

**ACPE test deadline: 11:59 p.m. (Central) on July 15, 2023.**

**Continuing Pharmacy Education Credit:** The American College of Clinical Pharmacy

and the American Society of Health-System Pharmacists are accredited by the Accreditation Council for Pharmacy Education (ACPE) as providers of continuing pharmacy education (CPE).

**ACSAP Target Audience:** The target audience for ACSAP 2020 Book 2 (*Geriatric and Psychiatric Care*) is board-certified and advanced level ambulatory care clinical pharmacists who manage the care of older adults.

**Module I (5.0 CPE) Geriatric and Psychiatric Care I**

**UAN:** 0217-9999-20-024-H01-P

**Chapter: Bipolar Disorder in Older Adults**

**Learning Objectives**

1. Distinguish between different phases of bipolar disorder, including common presentations in ambulatory older adults.
2. Apply clinical guidelines and pharmacologic information to treat ambulatory older adults experiencing bipolar mania.
3. Apply clinical guidelines and pharmacologic information to treat ambulatory older adults experiencing bipolar depression.
4. Develop a treatment plan for ambulatory older adults currently in the maintenance phase of bipolar disorder, including appropriate monitoring.

**Chapter: Alcohol Use Disorder in Older Adults**

**Learning Objectives**

1. Assess the geriatric patient for harmful alcohol consumption.
2. Devise a treatment plan for a geriatric patient experiencing alcohol withdrawal.
3. Distinguish the differences in mechanisms of action for naltrexone, acamprosate and disulfiram in regard to treatment of alcohol use disorder.
4. Design an optimal treatment plan for reducing future alcohol consumption in the elderly patient that involves pharmacologic and nonpharmacologic therapies.

**Module II (4.0 CPE) Geriatric and Psychiatric Care II**

**UAN:** 0217-9999-20-025-H01-P

**Chapter: Behavioral and Psychological Symptoms of Dementia**

**Learning Objectives**

1. Differentiate among the four syndromes of behavioral and psychological symptoms of dementia (BPSD) and their prevalence among patients with neurocognitive disorders.
2. Apply evidence-based treatment strategies for a patient experiencing BPSD.
3. Evaluate risks versus benefits of pharmacologic treatment for BPSD.
4. Design a person-centered care plan for a patient experiencing moderate to severe BPSD.

### **Chapter: Depression in Older Adults**

#### **Learning Objectives**

1. Assess older adult patients to identify those at high risk of depression.
2. Assess a patient for depression using an appropriate screening tool, and apply results to the *DSM-5* criteria for diagnosis.
3. Develop nonpharmacologic and pharmacologic treatment, including monitoring values, for the older patient with depression.
4. Evaluate for drug interactions, precautions, and contraindications in managing antidepressant treatment for the older patient.

### **Module III (3.5 CPE) Geriatric and Psychiatric Care III**

**UAN:** 0217-9999-20-032-H01-P

### **Chapter: Glaucoma**

#### **Learning Objectives**

1. Distinguish between different types of glaucoma, including common presentations in the ambulatory care setting.
2. Apply clinical guidelines and pharmacologic information to treat a patient with open-angle glaucoma.
3. Apply clinical guidelines and pharmacologic information to treat a patient with closed-angle glaucoma.

### **Chapter: Cannabis Use in the Older Adult**

#### **Learning Objectives**

1. Distinguish between the different cannabis components and products to successfully educate patients and providers.
2. Evaluate the evidence for using cannabis to treat common conditions in older adults.
3. Apply regulatory information to patient case scenarios.
4. Develop an appropriate monitoring plan for a patient newly initiated on or already using a cannabis product.

### **Module IV (3.5 CPE) Geriatric and Psychiatric Care IV**

**UAN:** 0217-9999-20-033-H01-P

### **Interactive Case: Constipation in the Older Adult**

#### **Learning Objectives**

1. Distinguish between different types of constipation.
2. Assess differences in common presentation of constipation in the older adult population.

3. Evaluate the use of laxatives, intestinal secretagogues, serotonin-4 receptor agonists, and opioid antagonists in the older adult population.
4. Develop evidence-based treatment regimens for patients experiencing acute and chronic constipation.

### **Interactive Case: Medicare Annual Wellness Visit**

#### **Learning Objectives**

1. Distinguish the differences between the initial preventive physical examination (IPPE), the initial annual wellness visit (AWV), and the subsequent AWV.
2. Evaluate required components of the Medicare AWV.
3. Apply clinical guidelines regarding preventive screenings and laboratory tests for a patient during the Medicare AWV.
