

TARGET AUDIENCE AND PROGRAM GOALS

This review course will help oncology pharmacy practitioners prepare for the Board of Pharmaceutical Specialties (BPS) Oncology Pharmacy Specialty Certification Examination to be administered on October 3, 2009. The program will also increase the knowledge and skills of pharmacists interested in oncology.

Course content is based on the BPS domains and knowledge areas that attendees will be tested on during the examination. Core topics will be discussed during lecture presentations, and Breakout Sessions will be offered to help participants individualize coursework.
